

### Main

Range of product	Modicon TSX Micro automation platform
Product or component type	Analog input module
Number of channels	4
Analogue input type	Temperature probe Thermocouple High level

### Complementary

Analog/Digital conversion	16 bits
Acquisition period	520 ms
Temperature drift	0.08 %/10 °C voltage circuit 0.01 %/10 °C current circuit
Input impedance	10 Ohm
Current consumption	85 mA
Isolation voltage	500 V AC
Product weight	0.21 kg

### Offer Sustainability

RoHS (date code: YYWW)	Will not be compliant Will not be compliant
------------------------	--

### Contractual warranty

Warranty period	18 months
-----------------	-----------
